Summary

Aspiring Full Stack and Mobile App developer with strong foundation in software development. Proficient in ReactJs, NextJs & Flutter framework for mobile. Skilled in languages like **C++, Python, Typescript, Java & JavaScript**. Recognized for delivering high-quality solutions and efficient software experiences.

Experience

- **ESHWAY**: <u>**Mobile Application Developer**</u>   Dec 2023 – Jan 2024

  I led the optimization and deployment of Python and Selenium scripts on AWS Lambda **increasing data acquisition speed by 20%** and enabling real-time data analysis. Upgraded and Debugged a Flutter project, addressing compatibility issues, upgrading dependencies, and implementing key features such as Google sign-in and mobile number authentication.

Projects

- **Issue Tracker**: NextJs Web App - [Project-Link](#)

  Developed a Next.js web app with SQL and Prisma, featuring advanced issue tracking. Users can create, customize, and manage issues with various media formats. Implemented Google authentication for user registration. Designed a responsive UI with Tailwind CSS and Radix UI contributing to a visually appealing interface.

- **Job-Central**: Expo-React-Native Application - [Project-Link](#)

  Engineered a React-Native app using Expo and Firebase for centralized job listings from platforms like LinkedIn and Glassdoor. Integrated JSearch API for real-time updates. Features job search, application, save functionality, and employer job postings. Designed with Tailwind CSS for a user-friendly experience.

Skills and Abilities

- **Programming Languages**: C++, Python, Java, JavaScript, TypeScript, Dart, HTML, CSS.
- **Frameworks**: ReactJs, NextJs, Flutter, Django, Tailwind CSS, Material UI.
- **Database**: SQL, POSTGRES, MongoDB, Firebase.
